

TEHNICAL DATA

OIL DILUENT

Basic composition:

Smoothing of aliphatic organic solvents with low aromatic content.

Physical - chemical characteristics:

The condition in the vessel is clear colorless liquid without mechanical impurities

Specific gravity at 20 ° C 0.790 - 0.800kg / lit flash point / ignition point > 65°C

Purpose:

It is used for dyeing of paints and varnishes on an alkali base oil as well as for washing tool.

Method of application:

When diluting it is added in an amount of 10 to 30% on the amount of oil alkyds paint and varnish.

Delivery form:

In metal barrels of 200 liters and IBC containers of 1000 liters.

Storage:

The term of use is unlimited if stored outside the range of sunlight original packaging at a temperature of -5°C to 35°C.

Precautionary measures

It is compulsory to apply measures of protection at work and anti-fire protection.

Observe manufacturer's safety instructions.
